Principal's Message

Dear parents and students

Greetings,

“Educating the mind without educating the heart is no education at all” – Aristotle

Education is the basis of all progress. The purpose of education is not to restrict itself into imparting bookish knowledge but to inculcate humanitarian values like compassion, courage, humility, integrity & reliability in a student alongside sharpening of their minds through deep knowledge of curriculum of respective levels with a view to evolve as an educated and responsible citizen equipped with capabilities of economic liberty.

The values and environment we provide for our children should be sustainable & see them through their formative years. The investment we put into our children today will help them to achieve greater heights & create the unimaginable and be the apotheosis to the rising generation.

“A dream does not become reality through magic; it takes sweat, determination, and hard work.”
– Colin Powell

Hard work of our board students paid off through the much awaited result in which many scored centum this year. Not only academics but our students have been twinkling stars, showing their talent in events like Ethics bowl, English debate along with all the sports activities at District Division, State and at National level bringing laurels to the institution.

Our objective is to provide an outstanding 360 degree education, and this is made possible by a very capable, dedicated “Team of Educators”, who are the driving force in the growth of the school. We persevere to equip our students with all round abilities and positive attitude to become ideal, capable and confident human beings, in order to contribute to their school, family, society and global citizens in the future.

Adieu
Mrs Jyoti Dubey
Principal

Our toppers of X & XII

TOPPERS OF SCIENCE- XII

How to Hunt a Monkey (Inspirational Short Story about Letting Go)

“Do you know how hunters of old used to trap monkeys?” A man asked his child.

“Rather than chasing them up a tree or shooting arrows from below, they’d put a heavy glass jar with a narrow neck on the floor, which had the monkeys’ favourite food inside.

They’d then step back and hide, waiting for the unsuspecting animal to approach.

When it did, the monkey would reach inside, clench a fist around the food, and try to pull it out.

However, the narrow neck of the jar would stop the poor monkey from getting its hand out!

It’d pull and pull, but to no avail. There was simply no way to get its hand out of the jar without releasing the food.

Rather than letting go, though, the monkey would persevere, refusing to drop its dinner.

The hunters would then approach and catch it to enjoy a meal of their own.”

“Don’t be like that monkey,” warned the man, “In life, to fight another day and grow as person, you must know when to quit, when to move on, and when to let go of whatever’s holding you back.”

Moral of the story:

Sometimes you have to let go and give up what you have now in order to receive something better in the future. Don’t let stubbornness be your downfall!
