Principal's Message

Dear Parents and Students

"Knowledge will forever govern ignorance. And people who mean to be their own Governors, must arm themselves with the power which knowledge gives."

—James Madison

It is rightly said that **"The whole purpose of education is to teach the child to think and not what to think"**. We at Army Public School, Sagar believe that this is the fundamental truth and it has always been the endeavour of the school to instil right values in its students so that they develop a holistic personality and are ready to take on the challenges head on once they step out of the gates of the school.

The unmatched and impressive heights of glory at which our school stands today bears testimony to the fact the school is fiercely committed to pursue excellence in all the fields, be it in academia, sports, ethics or aesthetics. In this contemporary world where relentless competition has become a part and parcel of life, it is of supreme importance that we teach our children to be competent enough to stand tall amongst others with their extraordinary skills and come out victorious from the realms of this challenging labyrinth. Endless achievements of our students in the previous years bear the testimony for our endeavours which will remain incessant in coming years too.

This academic session 2024-25 has come to its conclusion with beautiful memories of past and with the dreams of achieving newer heights in the new academic session 2025-26. My best wishes to all the students for striding on to the next level of their journey.

In the end, I hope these words of Swami Vivekananda *"Arise! Awake! And stop not till the road is reached"* will act as a motto and watchword that will always inspire our children throughout their lives.

The Frogs & the Ox

An Ox came down to a reedy pool to drink. As he splashed heavily into the water, he crushed a young Frog into the mud.

The old Frog soon missed the little one and asked his brothers and sisters what had become of him.

"A great big monster," said one of them, "stepped on little brother with one of his huge feet!"

"Big, was he!" said the old Frog, puffing herself up. "Was he as big as this?"

"Oh, much bigger!" they cried. The Frog puffed up still more.

"He could not have been bigger than this," she said. But the little Frogs all declared that the monster was much, much bigger and the old Frog kept puffing herself out more and more until, all at once, she burst.

Do not attempt the impossible.
