Principal's Message.....

Dear Parents and Students

**“Education is not the learning of facts, but training of mind to think.”
- Albert Einstein**

Education is one of the means to transmit the light of life and spread the radiance of it in the ambience in which we live. It is a lifelong process that creates an understanding of moral and ethical values to guide one's life and make our students the future hope of the country.

We at APS Sagar pursue to instil self-belief in our students so they can confidently navigate challenges and embrace opportunities. Together, we are shaping the future of India by nurturing well-rounded individuals who will lead with integrity and excellence.

We aspire to encourage children to believe in themselves... to reach for the stars... to reach great heights and they can... as they believe in their abilities to do so.

Work hard until the lamp light of your study table becomes the spotlight of the stage.

And our students have proved this through their hard work and dedication which resulted into stupendous results of XII & X. All the students performed outstandingly well with a special mention to our student Sabhyata Shukla who secured 1st position in District and 4th position in State by obtaining 98.4% in X board results. Also 10 students secured a perfect score (100/100) in various subjects.

I am immensely proud of all our students for their great efforts. I wish that you achieve many more such milestones and make your parents and teachers feel proud of you in the future as well.

Parents, this success is dedicated to you. It is your undying belief in us as well as in your children that inspires us to shape their young minds and transform them into dreamers, achievers, and performers.

I wish to thank the guiding force in their life; namely, our teachers for being the best Gurus, who always give the right direction to these students and inspire them to give their best.

I wish to say my love and blessings will always be there with all our students. So, believe in yourself, strive for excellence, and together we will create a brighter tomorrow for all.

**Warm Regards
Jyoti Dubey
Principal**

From the Editorial Board.....

The Best Seed

There once was a farmer who grew the most excellent wheat.

Every season he won the award for the best wheat in the country.

A wise woman came to him to ask him about his success.

He told her that the key was sharing his best seed with his neighbours so they could plant the seed as well.

The wise woman asked, “How can you share your best wheat seed with your neighbours when they compete with you every year?”

“That’s simple”, the farmer replied.

“The wind spreads the pollen from everyone’s wheat and carries it from field to field.

“If my neighbours grew inferior wheat, cross-pollination would degrade everyone’s wheat, including mine.

“If I am to grow the best wheat, I must help my neighbours grow the best wheat as well.”

This is not only excellent advice for growing the best crops, but also great advice for how to live your life.

If you want to live a meaningful and happy life, help others find happiness.

Remember: The value of your life is measured by the lives you touch with love, kindness, respect and hope.

From-

Mrs Sonal Jaishekhar & Ritu Khatri
