## APS SAUGOR NEWSLETTER

SEPTEMBER - OCTOBER 2024

### Principal's Message.....

Dear parents and students

As Lenin has said, **'There are decades where nothing happens and there are weeks where decades happen'**.

The same holds true for one of the biggest achievement that APS Sagar witnessed after 13 years, an achievement that made us all proud. Our English Debate Team- Sabhyata, Riya and Durgesh after their consistent wins at Cluster and Command level showed an exemplary performance at National Level Debate bagging **'Best Speaker- For'** and **'Best Interjector'**. A dream that came true after more than a decade.

Blessings to the team for their consistent hard work and excellence. Heartiest congratulations to the mentors for their tireless efforts and to the parents for their relentless support. I am sanguine that the flag of APS Sagar will keep soaring high.

**"Don't be pushed around by the fears in your mind. Be led by the dreams in your heart."**

As we approach nearer to the year end, I wish to convey to all my dear students that nothing is impossible, you simply need to find the right path that can lead you to your dream. So, dream big and work for it.

As the Principal of the school, I feel honoured and privileged to be part of an educational institution where every stakeholder is a learner and every day is an opportunity to learn and discover. We look at ourselves as a community of learners, where everyone learns including our teachers, parents & staff.

While this newsletter will give you glimpse of continuous and comprehensive learning that takes place through various activities that our students participate in, we also know that learning is social, and in this context, we encourage you to come and speak to us in person for a more detailed perspective. I look forward to working with you as we help create a school where parents are welcome at any time, students are engaged in meaningful learning and the staff members are valued and appreciated for their efforts.

Warmly,  
Jyoti Dubey  
Principal

## FROM THE EDITORIAL BOARD.....

### COUNT WISELY

One day, king Akbar asked a question in his court that left everyone in the courtroom puzzled. As they all tried to figure out the answer, Birbal walked in and asked what the matter was. They repeated the question to him.

The question was, "How many crows are there in the city?"

Birbal immediately smiled and went up to Akbar. He announced the answer; he said there were twenty-one thousand, five hundred and twenty-three crows in the city. When asked how he knew the answer, Birbal replied, "Ask your men to count the number of crows.

If there are more, then the relatives of the crows must be visiting them from nearby cities. If there are fewer, then the crows from our city must be visiting their relatives who live outside the city." Pleased with the answer, Akbar presented Birbal with a ruby and pearl chain.

**Moral of the Story: Having an explanation for your answer is just as important as having an answer.**

**From- Mrs Sonal Jaishekhar & Mrs Ritu Khatri**
